SPECIALIST EQUIPMENT, MADE SIMPLE.

TECHMINE
SOLUTIONS

MORE INFO AT: WWW.MARCEM.COM.AU

SERVICING THE MINING, RESOURCES, AND OIL & GAS INDUSTRIES.

For over 10 years, Marcem has been providing tailored and specialised equipment, tooling, training and management services for the mining, resources, and oil & gas industries.

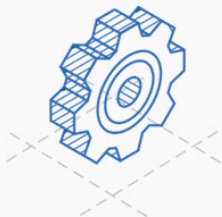

We offer an extensive range of equipment and tools for both purchase and hire to suit a multitude of needs, focusing on providing the highest quality of service with cost affectability. We don't just take care of supplying goods. We take care of your servicing, repairing and calibration needs with our fully capable workshops and training facilities.

Marcem are accredited and authorised distributors of premium products that solve the biggest problems in industry, quickly, effectively, and with safety at the forefront.

▶ SAFETY GUARANTEE

For over 10 years, we've put safety first. It is our primary focus in providing tailored and specialised equipment, and tooling and asset management services, for the mining, resources, and oil and gas industries.

▶ SERVICE INTEGRITY

We don't work for our clients, we work with them – bringing honesty and integrity to each and every step of the process. We are transparent in our communication and work tirelessly to ensure the success of everyone we partner with.

▶ INDUSTRY EXPERIENCE

Each member of our team hails from a different successful working background. It's this diversity, comprising varied qualities and life experiences, that we draw upon to create unique and effective solutions for our clients.

Hydraulic and Mechanical Belt Lifters

Elevate Your Operations with Techmine's Conveyor Belt Lifting Solutions

For far too long, the industry has grappled with outdated conveyor belt lifting equipment—bulky, cumbersome, and prone to failures. That's why Marcem is proud to introduce Techmine's revolutionary solutions, designed to transform the way you approach conveyor maintenance and lifting tasks; eliminating the risk of heavy and unfit lifting equipment.

Hydraulic Belt Lifter

- Rated for 2-tonne loads, suitable for belts 750mm to 3200mm.

- Telescopic lift heights: 250mm, 350mm & 450mm.

- Battery Operated HPU, self-contained with all controls with rechargeable battery.

- Certified to meet AS4991-2004 & AS1665-2004 standards.

Hydraulic and Mechanical Belt Lifters

Operate with ease, confidence and safely with Marcem Australia

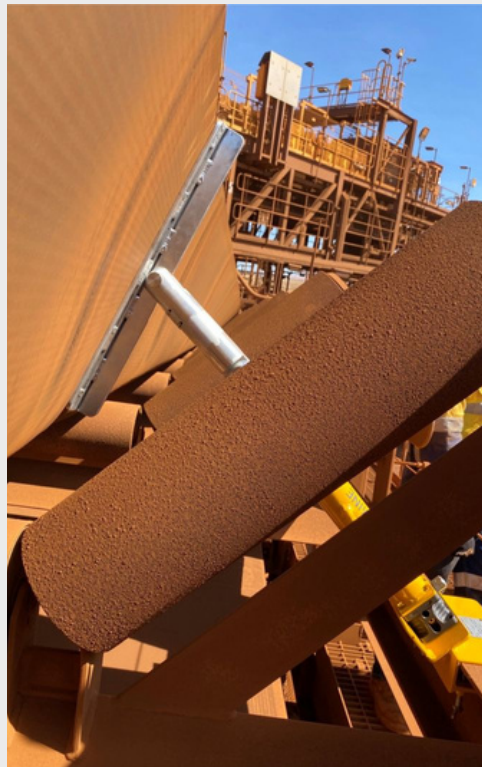

Mechanical Belt Lifter

- Rated for 1-tonne loads, suitable for belts 750mm to 3200mm.

- Lifts trough and return belts simultaneously, self-supporting design.

- Operated by 0.5 kW/80 Nm battery drill.

- Lightweight, self-contained, suited for belts up to 2 meters wide.

Wing Belt Lifter

- Rated up to 1-tonne load

- Saves time with improved efficiency

- Operated by 0.5 kW/80 Nm battery drill.
